TRIPLE SHEET.

New York, Tuesday, October 16, 1866.

TO ADVERTISERS.

We beg and entreat of our advertisers to send in their advertisements as early in the afternoon as possible, in order to enable us to classify them properly and to release as in some measure from the increasing pressure on our columns. For a long time past the circulation of the Herald in the metropolis and the surrounding cities has exceeded that of all the other papers put together. Being the vehicle of communication with the public upon all subjects relating to their social, political and commercial interests, no one can well go to business in the morning without reading the Herald, from which he can ascertain the state of the markets, what is to be sold, and where he can buy what he requires, &c. Our advertisements, therefore, will see the advantage to us and to themselves of sending in their advertisements at an early hour, so that we can insert them in such place and in such regular form as will render them most available for the public benefit and secure the greatest good for the advertisers.

THE NEWS.

EUROPE.

By the Atlantic cable we have a financial and commercial report dated in London and Liverpool yesterday evening, October 15.

Cotton closed at 80 1/2 for money in London. United States five-twenty, 70 1/2.

The Liverpool cotton market was very active. Mid-ling uplands closed at fifteen and one-fourth pence—an advance of one-fourth of a penny.

The mail advices state that the French government is pursuing its reform in the monetary system of Europe. Negotiations relative to financial unification about to be commenced with the Prussian government, which will coincide with those rendered necessary by the dissolution of the German Zollverein.

THE CITY.

A vast and enthusiastic concourse of people assembled in and around Cooper Institute last evening to join in the ratification of the nominations of Reuben E. Fenton and General Stuart L. Woodford. William E. Dodge presided. Addresses were delivered by Hannibal Hamlin, Senator Wilson, Charles S. Spencer, General E. W. Chittenden, Colonel McKim, Judge Parker and others. The addresses strongly favored the right of Congress to prescribe terms and conditions for the Southern States, and deprecated the action of President Johnson, as making more complex the difficulties which attend their admission on a sure and permanent foundation of peace and harmony.

Rev. Henry Ward Beecher last evening delivered an address in the Academy of Music, Brooklyn, before a very large audience. The subject selected for the occasion was one of great interest, considering the character and the recent political position of the speaker. It was "The Issues of the Canvass." Mr. Beecher treated the subject in his usual eloquent style, but there was nothing in his utterances or sentiments which added much to the interest of the vital question at issue before the country.

The grand base ball match for the championship of the United States was played yesterday afternoon on the Capitoline grounds at Brooklyn, in the presence of an immense concourse of people, between the Athletic Club of Philadelphia and the Atlantic Club of Brooklyn, the latter being the victors by a score of twenty-seven to seven.

Charles A. Bess, a silk merchant of this city, yesterday brought an action in the Superior Court against Alexander A. Noyes for assault and battery, asking \$5,000 damages. Plaintiff complained that he was assaulted in his own house by defendant for ordering him out, but defendant answered by charging Bess with using abusive language to a young lady to whom he (Noyes) was engaged to be married. After a short trial the jury gave a verdict for the defendant.

An action for alleged malicious prosecution was also commenced in the Superior Court yesterday, before Judge James. The plaintiff, John Riley, keeper of an eating and drinking saloon in the Eighth avenue, brings his suit for twenty thousand dollars, on the ground that his arrest was caused on a charge of grand larceny by John Jeffers, defendant, who came into his store and procured articles for which he refused to pay. The defense is that the plaintiff was an unlicensed liquor dealer, and therefore his business could not be injured. Case still on.

Another action against a railroad corporation was commenced yesterday before Judge Garvin, plaintiff, Superior Court. The plaintiff, William Gabel, complains that he sustained injuries that cripple him for life by reason of the conductor of one of the Third Avenue cars starting while he was in the act of getting on the platform. Damages are laid at \$15,000. Case still on.

The Madame Jumeil will case came on yesterday in the Supreme Court, chambers, before Judge Clarke, on a motion to settle the appointment of commissioners to take testimony in Providence, Rhode Island. Plaintiff in the suit, Mr. Nelson Chase, obtained a commission directed to Mr. Ashley, residing in that vicinity, empowering him to take the testimony, and defendants now applied for a commissioner to act with Mr. Ashley. Judge Clarke denied the motion, on the ground that it was contrary to practice and precedent.

In the Court of General Sessions yesterday John Dixon and William Ruggie were sent to State Prison for five years for the robbery of William Anderson in a stage house. Eliza Burton was sent to the Penitentiary for six months for robbery, and Edward Bennett was remanded for sentence for grand larceny, of which he pleaded guilty.

The Howard divorce case was up in the Supreme Court, Brooklyn, yesterday, and situations and circumstances made showing the alleged guilt of both husband and wife of adultery.

Alexander J. Christy was arraigned in the Police Court on his own confession of having robbed his brother-in-law, but discharged at the request of the complainant. August Vanner, arrested for having embezzled funds of Mallard, the confectioner, was held to bail on three charges. James W. Dorritt was held to bail on three charges. Joseph was committed to the Tombs on the charge of robbing William Miller. Mary O'Brien was committed to the Tombs for alleged robbery of Joseph McKerrrow, of 505 Myrtle avenue, Brooklyn. Dennis McGinnis was sent to the Tombs charged with robbing Jeff Rogers.

Joshua Carpenter, commission merchant, of No. 70 Clinton place, was arrested and committed yesterday, charged with forging the name of George R. Hobby & Co. on a warehouse receipt, upon which he negotiated an advance of \$5,000 from the New York Warehouse and Security Company.

An attempt was made to stop proceedings in the case of Edward Urick, charged with being an accomplice of Eugene Durand in the forgeries on the Hanover Bank; but Judge Dowling refused to allow it, and the accused is to be tried with his principal for the alleged crime.

George Hoyer, alias George May, a government detective of the Treasury Department, was arrested yesterday charged by Thomas R. Knox with having sold him a quantity of counterfeit money.

The jury in the case of Catherine Clark vs. William Churchill, for assault and battery, brought in a verdict for defendant.

The Common Council of Brooklyn have authorized the alteration of the Gates Avenue Street Railroad, so as to permit the laying of their line through Bedford and Grand avenues.

John Dempsey was instantly killed by falling from a window of No. 588 Atlantic street, on which he had been sleeping.

George Teckner, a painter, yesterday fell from a fourth story window of A. T. Stewart's store on Broadway, corner of Tenth street, and was fatally injured.

One fresh case of cholera was reported in this city yesterday. Burial permits for two cholera dead were issued. The mortality report for last week showed a total of 429 deaths, of which only thirteen were from cholera. At the lower quarantine the cholera was on the increase. At Chicago eighty-seven cases and twenty-one deaths from cholera are reported for the forty-eight hours ending at two P. M. yesterday.

The steamship Hibernia, Captain Munroe, of the Anchor line, will sail to-day (Tuesday) at twelve M. for Glasgow, calling at London and to passengers and mails. The letter bags will close at eleven A. M.

The stock market was steady yesterday morning, but afterwards fluctuated violently. Gold weakened to 149 1/2 at four P. M.

The several fluctuations and eventual downward turn in the gold premium yesterday had the effect of rendering commercial values in some cases entirely nominal and bringing trade in some departments to an abrupt stand. But for Monday we observed a material enlargement in the volume of trade, there being in certain commodities a more active movement than usually characterizes the beginning of the week. The improvement in trade as a rule was attended by a corresponding advance in prices, both for foreign and domestic produce, and in the main the markets were much firmer than on Saturday.

Cotton advanced 1/2 c. to 26 c. per lb., but closed exceedingly dull. Groceries were moderately active, without special change in prices. Dry goods were steady, with a fair demand. On Change four was more active and firmer. Wheat advanced 1/2 c. to 26 c. per bushel, selling freely at the improvement. Corn advanced 1/2 c. to 26 c. per bushel under an active export, and speculative demand. Oats were 1/2 c. to 26 c. per bushel in seller's favor, with large sales. Rye was 1/2 c. to 26 c. per bushel and active. Pork steady. Beef dull and heavy. Lard lower. Whiskey firm. Petroleum 1/2 c. lower. Freight more active.

Under continued heavy receipts the market for beef cattle has ruled quiet, and a decline of fully 1/2 c. per lb. has been submitted to in the medium and common grades, while extra cattle commanded previous prices, in view of the scarcity, sales being made as high as 18 c. per lb. The bulk of the sales were made at prices ranging from 15 c. to 16 1/2 c. Common cattle sold as low as 10 c. to 12 c., while good grades realized about 16 1/2 c. to 17 c. Milch cows ruled quite active and firm. Veal calves were without decided change, the market being firm at 13 c. to 13 1/2 c. for prime, with an occasional sale of extra at 14 c., the range being from 10 c. to 14 c. Sheep and lambs, although plenty, have been in good demand, the former selling at 6 c. to 7 c., and the latter at 5 c. to 6 c. The hog market has been fairly active, and previous prices have been maintained in the face of increased receipts. We quote best quality 11 c. to 11 1/2 c., and fair to good 10 1/2 c. to 11 c. The total receipts were 6,824 hogs, 98 cows and calves, 1,254 veals, 25,116 sheep and lambs and 19,285 swine.

The bulk of the sales were made at prices ranging from 15 c. to 16 1/2 c. Common cattle sold as low as 10 c. to 12 c., while good grades realized about 16 1/2 c. to 17 c. Milch cows ruled quite active and firm. Veal calves were without decided change, the market being firm at 13 c. to 13 1/2 c. for prime, with an occasional sale of extra at 14 c., the range being from 10 c. to 14 c. Sheep and lambs, although plenty, have been in good demand, the former selling at 6 c. to 7 c., and the latter at 5 c. to 6 c. The hog market has been fairly active, and previous prices have been maintained in the face of increased receipts. We quote best quality 11 c. to 11 1/2 c., and fair to good 10 1/2 c. to 11 c. The total receipts were 6,824 hogs, 98 cows and calves, 1,254 veals, 25,116 sheep and lambs and 19,285 swine.

Under continued heavy receipts the market for beef cattle has ruled quiet, and a decline of fully 1/2 c. per lb. has been submitted to in the medium and common grades, while extra cattle commanded previous prices, in view of the scarcity, sales being made as high as 18 c. per lb. The bulk of the sales were made at prices ranging from 15 c. to 16 1/2 c. Common cattle sold as low as 10 c. to 12 c., while good grades realized about 16 1/2 c. to 17 c.
